

## **Payments for Washed Intrauterine Insemination (IUI)**

IUI and sperm washing are not covered by insurance benefits. Payment for these services are, therefore, the patient's responsibility and are expected in full on the day of service.

Costs for Physician services are:

- Intrauterine insemination \$200.
- Sperm washing \$50.

In addition to Physician services, there are other expenses for which patients will be responsible:

- If semen from a sperm bank is being used, the patient will order and pay the sperm bank directly.
- The patient will buy her own LH (ovulation) test kit (~ \$30)
